

About Us

With a management team that has more than a century of combined experience in the development and operation of freestanding Acute Medical Rehabilitation Hospitals (IRF) and Long Term Acute Care (LTAC) hospitals in markets from coast to coast, Vibra Healthcare is uniquely qualified to be a leader in the field of acute rehabilitation and LTAC hospitalization.

Patient Success Story

Olivia, a pleasant 36-year-old female, was admitted with acute respiratory failure secondary to hemorrhage. When admitted, she presented with moderate weakness, possible dysphagia, and failure to wean. Olivia arrived at Vibra with a tracheostomy, requiring T-mist for respiratory support, and a PEG tube for nutrition. She required moderate assistance with one person to sit up on the edge of the bed, and moderate assistance for any mobility. Olivia was highly motivated to go home so she eagerly began working on her Physical therapy, Occupational therapy, Speech therapy, Respiratory and Dietary goals.

Olivia did not take too long to reach her goals. At the time of discharge, she was modified independent in all mobility including walking to the bathroom and dressing. She was able to safely ambulate over 200 ft., with no walker, and very motivated to go to the gym daily for strengthening. She enjoyed participating in leisure activities, as well as activities of daily living such as grooming and dressing. Olivia was able to start eating by mouth just 2 days after admission. Her tube feeding was discontinued quickly after admission. Olivia did continue to require a tracheostomy for respiratory needs; however, she was able to be trained on safety and proper care in order to discharge home with it in place.

One of the main barriers to Olivia discharging home was insurance; however, the Case management team was diligent in following up and was able to discharge Olivia with the proper equipment and training. Olivia is now happily at home with family and Home Health support. We wish her well with her further progress! We will miss her laughter!
